David Hahn Joins SPARTA Composite Products as Deputy Engineering Manager

SAN DIEGO, January 14, 2008 – SPARTA Composite Products, a business unit of SPARTA, Inc., is pleased to announce that David Hahn has accepted a position as Deputy Engineering Manager, reporting to Joe Cook, Chief Engineer. In this capacity he will be instrumental in the coordination of engineering responsibilities related to current production programs as well as the transitioning of development and LRIP programs to full production.

Mr. Hahn received a degree in Mechanical Engineering from the University of Idaho and for over 20 years has held positions of increasing responsibility in the areas of tooling design and fabrication and engineering and manufacturing process development. Most recently he was Engineering and Technology Manager at CCS Composites.

“David brings with him a wealth of knowledge and experience in a variety of composite manufacturing environments which makes him ideally suited to enhance our manufacturing efficiencies. He will be an asset to our team and will play a significant role in our continued success,” said Joe Cook, SPARTA Composite Products Chief Engineer.

SPARTA Composite Products is a business unit of SPARTA, Inc. and is an industry leader in high-volume production of composite products and sub-assemblies for aerospace and commercial systems. The company’s product areas include aircraft engine components, UAV components, aircraft components, munition components and missile products. SPARTA specializes in compression molding, RTM and hand layup/autoclave cure. SPARTA, Inc. is a systems engineering and advanced technology company headquartered in Lake Forest, CA. The corporation is dedicated to serving our nation’s needs within our core business areas of strategic defense and offense systems, tactical weapons systems, space systems, and information systems.
