SPARTA Receives Star Supplier Award from Lockheed Martin

SAN DIEGO, July 9, 2007 – SPARTA Composite Products, a business unit of SPARTA, Inc., was recently recognized for outstanding supplier performance with the award of Star Supplier status by Lockheed Martin’s [NYSE: LMT] Missiles and Fire Control business unit.

The Star Supplier Award was developed by Lockheed Martin to “strengthen relationships and provide recognition to world class suppliers that contribute to Mission Success.” It is awarded to select suppliers meeting or exceeding strict performance criteria in the areas of quality, delivery, affordability and management/administration.

“We are honored to receive this prestigious award from Lockheed Martin which recognizes our dedication to the on-time delivery of high-quality composite components and customer satisfaction,” says Paul Oppenheim, Vice President and General Manager of SPARTA Composite Products.

SPARTA Composite Products is a business unit of SPARTA Inc., and is an industry leader in high-volume production of composite products and sub-assemblies for aerospace and commercial systems. The company’s product areas include aircraft engine components, UAV components, aircraft component, munition components and missile products. SPARTA is AS9100B:2004/ISO 9001:2000 Certified, and specializes in compression molding, RTM and hand layup/autoclave cure. SPARTA Inc. is a systems engineering and advanced technology company headquartered in Lake Forest, CA. The corporation is dedicated to serving our nation’s needs within our core business areas of strategic defense and offense systems, tactical weapons systems, space systems, and information systems.
