### **CPO-2367: DIRECTOR OF PROGRAMS**

Summary:

The Director of Programs (DOP) will provide guidance, oversight and management of the program management office (PMO), including overall responsibility for all programs as well as the Program Managers (PMs) at Cobham Composite Products (CCP), with the responsibility to lead the company to successful fulfillment of the fiscal, delivery and quality requirements on all CCP programs. The DOP will work hand-in-hand with the PMs as well as with CCP's Management Team to establish and maintain a PMO that is considered by industry standards to be "world-class," in that it results in a high-caliber of program management and delivery of goods and services that consistently meet or exceed both internal and external customer requirements. The DOP must engender a culture within the PMO that results in excellent customer satisfaction (leading to "Raving Fans") for all CCP customers, thus maximizing long-term customer relationships and follow-on business.
